Yuri Tweet Deleter Crack + PC/Windows

Yuri Tweet Deleter is a free and easy tool that will delete multiple tweets at the same time. Instead of manually deleting the relevant tweets, you can just click on one button and it will remove all the ones you set before. All the tweets you want to delete can be saved in a text file. Yuri Tweet Deleter - See more at: Administrating a Twitter account can be a difficult activity, especially if you want to manage (and by manage I mean delete) some of your older tweets that might be inconvenient for you or your followers. Luckily for you, nowadays there are software solutions for almost everything, including removing several tweets from your account simultaneously. Yuri Tweet Deleter is one of them. Deletes multiple tweets As its name strongly suggests, this tool was developed to help you delete tweets from your profile. What its name doesn't hint at is the fact that it can remove multiple items at the same time by simply inputting a search term in the right box. All you have to do in order to remove your tweets is download your Twitter archive, load the appropriate "tweets.csv" file into the application, type the term you want to use as a filter in the designated field and hit the "Delete Tweets" button. Needs Twitter authorization One important aspect of Yuri Tweet Deleter is that before you can start removing massive amounts of tweets from your account, you need to grant it permission to work with Twitter. The process is automated; you just have to log into your Twitter account, as the app will prompt you with a new page in your default browser where you can do so, copy the code displayed on the screen, paste it into the app's dedicated field and hit the "Save" button. Handy multiple tweet deleter All in all, if you're looking for a way to delete several of your tweets at the same time with minimum hassle, Yuri Tweet Deleter might help you do that effectively. However, note that you need to authorize this app to work with your Twitter account and download your Twitter archive in order to use it. Yuri Tweet Deleter Description: Yuri Tweet Deleter is a free and easy tool that will delete multiple tweets at the same time. Instead of manually deleting the relevant tweets, you can just click on one button and it will remove all the ones you set before. All the tweets you want to delete can

Yuri Tweet Deleter Free [Win/Mac] (April-2022)

Keymacro is one of the most powerful social sharing extensions. With it, you can post to Twitter, Facebook, Google+, LinkedIn, Pinterest, Tumblr, Weibo, VK and more. Keymacro also lets you add image captions, a custom URL, RT, like, favorite, and reply in a single click. By default, this app is for iOS only. To share stuff to other platforms, like Android, and Mac, you need to buy the add-on (about \$5/year).
