Ikono--Jigoku--Jishou to be continued!! See you soon! :) How thick Is A Deck Of Cards A: The problem is that you have to escape " "; one solution is `for(var i in $("input[type=radio]").each(function(e) { if ($(this).val()=='a'){ //not working $(this).val(""+el+""); //working, .echo() } });` EDIT Now, in case of a comma, here is how you could do it for a comma: `for(var i in $("input[type=radio]").each(function(e) { if ($(this).val()=='a'){ //not working $(this).val(function(i){ //working, .echo() return ""+$$(this).val().replace(/s/g, ",").replace(",","")+""; //working, .echo() }); } });` But you should really avoid using `$.each`, or `forEach`. Also, better use one loop than two, it is better for you and the reader. `$("input[type=radio]").each(function(e){ if ($(this).val()=='a'){ //not working $(this).val(function(i){ //working, .echo() return ""+$$(this).val().replace(/s/g, ",").replace(",","")`
